The Online Curriculum Leadership Academy is a program designed to provide in-depth learning and networking opportunities that develop curriculum leadership. Curriculum design, development, implementation, and evaluation have become complex processes in today's schools. The target audience for this course includes: central office administrators, principals, assistant principals, and other educational leaders.

The PASCD Curriculum Leadership Academy was designed to help educators gain a deeper understanding of curriculum. Strategies and techniques to be successful, resources that are available, and how to continue to improve in a variety of areas of curriculum leadership will be addressed.
